Professional Summary

B.Tech Computer Science (Data Science) student with strong foundation in Machine Learning, Software Development, and Data Analytics. Experienced in building real-world ML systems, analytics dashboards, and automation tools. Awarded Runner-Up at Technovation 1.0 Hackathon for developing an end-to-end AI solution. Passionate about solving practical problems using clean architecture and data-driven approaches.

Education

B.Tech in Computer Science (Data Science)

2023 – Present

Kolhapur Institute of Technology, Kolhapur
CGPA: 8.2

Class XII (Maharashtra State Board)
Percentage: 71.5%

2023

Class X (Maharashtra State Board)
Percentage: 92.2%

2021

Certification: 100 Days of Code – The Complete Python Pro Bootcamp

Oct 2024 – Jan 2025

Technical Skills

Programming Languages: Python, JavaScript

Web Technologies: HTML, CSS, Node.js

Core Computer Science: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Operating Systems, Computer Networks

Databases: MySQL

Machine Learning: Machine Learning, Pandas, deep learning, Retrieval-Augmented Generation, Large Language Model

Internship

SaiKet Systems – Machine Learning Intern

- 1) Oct 2025 – Nov 2025 Managed complete ML pipeline including data cleaning, preprocessing, feature engineering, and modeling.
- 2) Built Random Forest model with hyperparameter tuning and cross-validation.
- 3) Extracted insights on booking patterns and seasonal trends.
- 4) Achieved 99% accuracy on unseen validation data.

Projects

AI-Powered Student Feedback Analyzer

-
- Developed multilingual NLP system for structured and unstructured feedback analysis.
 - Implemented sentiment analysis, topic classification, and sensitive issue detection.
 - Built interactive admin dashboard for visualization and reporting.
 - Achieved 92% model accuracy using optimized ML algorithms.
 - Secured Runner-Up position in Technovation Hackathon (100+ teams).

Sept 2025 – Oct 2025

Trackonomy - Financial Management and Analytics Tool

- Developed financial tracking system allowing users to manage expenses, savings, and custom categories.
- Generated downloadable Excel reports and PDF financial summaries.
- Built analytics dashboard with custom date-range history tracking.
- Designed goal management system with automated email notifications upon completion.
- Implemented priority-based email reminder system for important financial events.
- Integrated EMI, SIP, FD, and Tax calculators for financial planning.
- Added calendar-based monthly tracking and performance monitoring.

Achievements

- Runner-Up – Technovation 1.0 Hackathon (BSIET, Kolhapur)
- Published dataset on Kaggle with 3,000+ downloads and 13,000+ views
- Solved 100+ problems on LeetCode
